

## GRESSY AND DAYNE WILL OPEN AT HAWAIIAN OPERA HOUSE TONIGHT

When Cressy and Dayne open at the Hawaiian Opera House tonight they are sure to make a hit with the Honolulu audience as they have with the people all over the world. A man who has seen this couple play on the Orpheum circuit a number of times met Cressy for the first time the other day and complimented him on his work. He said a number of things about never having laughed so much in his life. When he had finished Cressy looked at him, smiling good-naturedly, and said, "There is a pretty good item to put down in your mental book, under the heading of 'Useful Information.' When you are in a theater laughing your head off at some brilliant comedian, don't forget to hand over 60 per cent of the credit to the quiet unobtrusive party who is sitting or standing opposite him asking the questions. You can find a thousand people who can play the comedy part successfully, to finding one who can successfully play that opposite part." Newspaper critics always give all of the credit of the Cressy and Dayne successes to Cressy, but he is most emphatic when he declares that more than half of the praise is due Mrs. Cressy.

Dayne, of Cressy and Dayne, premier comedians, who will open at the Opera House tonight.

Between the three skits, "Grasping an Opportunity," "The Village Lawyer" and "Town Hall Tonight," Professor Anger will render a number of selections on the cello. Professor Anger is said to have few peers and all who have heard him declare him to be a wonderful musician. Tickets may be had at the Hawaiian Promotion Committee rooms in the Young building.

A Texas girl—Ellen Evelyn James, of San Antonio—now a student in sculpture in the Art Students' league in New York city—is destined to become much sought after. In fact, the possession of her picture will be the ambition of countless millions.

Why? Well, because Kenyon Cox has used Miss James as the model for the figure and head of "Plenty," a goddess appearing on one of the new bills which Uncle Sam will soon issue.

"I am so sorry people have found out I posed for the figures, because all my friends will remind me of it to the end of my days, I suppose," said Miss James.

She is the daughter of Mr. and Mrs. S. H. James of San Antonio.

Mrs. Eric Loder, formerly Gabrielle Ray of the London Gaiety, is bringing suit against her husband for restitution of conjugal rights.

## MANY WOULD BE GUARDS WHERE NONE NEEDED

Nearly every mail from the mainland brings six or eight applications from soldiers of the regular army to the territorial board of health, asking for jobs as guards at the leper settlement on Molokai. One came recently from an inmate of the federal prison at Leavenworth, Kas., who had been sentenced for desertion from the army. He stated his term in jail would expire shortly and that he believed he could qualify as a guard at the settlement.

Just why the soldiers should have this erroneous impression, of jobs awaiting the asking at Molokai, is more than the health authorities can answer. The applications nearly all come from members of the army, and from posts on the mainland. The local commanding officers have been informed of the situation and the enlisted men who come to Hawaii do not apply.

To stop the flood of appeals, Secretary K. B. Porter recently wrote to the Army and Navy Journal and his communication, setting forth the fact that guards never are employed at the settlement, was published in full in that magazine.

Instances of attempts to escape from Molokai are so rare as to be almost unknown. Moreover, the natural location of the settlement, surrounded as it is by unscalable cliffs on three sides and a treacherous coral studded sea channel on the other, forms a natural barrier better, the authorities say, than human guards could be.

## MAUI NOTES

WAILUKU, Maui, May 24.—The new pipe organ for the Wailuku Union Church arrived this past week. The organ is to be a memorial to the late Henry Perrine Baldwin, and is to be erected in the Wailuku church this coming three weeks with a recital on June 21st, and the dedicatory service on the Sunday following.

The organ is built by the Austin Organ Company of Hartford, Connecticut, which has an enviable reputation for turning out the sweetest-toned instruments made. It will contain twelve stops or good range with a large number of couplers, which will make it an unusually efficient instrument.

The instrument came across the continent in eighteen days, and by being shipped on the Honolulu, arrived on Maui in the remarkably short time of five weeks.

J. E. Narnum, who has erected some of the largest organs on the Pacific Coast, arrived on the same boat and will give his entire attention for three weeks to the erection of the new organ. He will be assisted in the work by Mr. Ernest Giesche of the Thayer Piano Company, and by W. Dingle, who came up from Honolulu especially to be on hand for any work that might be necessary.

The organ will be placed in the first arch of the south transept of the Union church. It will occupy the entire space and fill the front arch. The display pipes will also run from the pillar to the south wall of the church. "The action is tubular pneumatic and the blowing device electric with an additional blower placed inside the organ, so that in case of an accident hand power can be made use of. The console will face the pulpit and the choir."

The opening recital of Saturday evening, June 21st, will be one of the most enjoyable musicales ever given on Maui. Mrs. Louise Chisholm Jones is in charge of the program for the evening. The principal features of the opening concert will be Gounod's "Gallia" sung by the choir of the church augmented by several strong voices, the rendering of the "Hallelujah Chorus" from "The Messiah" or Handel's and specially selected organ music, so that the power and scope of the new organ can be brought out to its fullest value.

### GIRL ROBBED OF HAIR

William E. Bennett of Long Branch, N. J., is held in \$1,000 bail, accused of having cut off a braid of Miss Ella Hennessey's chestnut hair. He and his friends say it is a case of mistaken identity.

Bennett is about thirty-five and is employed by the Consolidated Gas Company. Miss Hennessey is seventeen and lives on West street, North Long Branch. She was ironing in the kitchen Saturday when a man entered, gagged her and cut off one braid, remarking that he would leave one so that she would always remember her beautiful hair. He bound her to a chair and left her unconscious.

Suspicion was directed against Bennett and the girl positively identified him. The police say a handkerchief with which the girl was bound was of the same description as one found on Bennett.

[Special Star-Bulletin Correspondence] HILO, May 24.—Late yesterday evening word was received from Kailua that ex-schoolmaster Wilson had been freed of a charge of incest with his daughter, Lillian. The case has taken over two weeks to hear the evidence on both sides, but the jury was out only an hour before it returned its verdict of not guilty. Attorney Lightfoot of Honolulu defended Wilson.

Give your growing children healthy appetites. Stearns' Wine of Cod Liver Extract makes delicate children strong by creating an appetite for healthy food. It builds them up—advertisement.

## FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP, 25 CENT "DANDERINE"

Save Your Hair! Danderine Destroys Dandruff and Stops Falling Hair at Once—Grows Hair, We Prove It

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous you must use Danderine, because nothing else accomplishes so much for the hair.

Just one application of Knowlton's Danderine will double the beauty of your hair; besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, don't hesitate, but get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now? A 25 cent bottle will truly amaze you—advertisement.

## WAGON SOLDIERS AND 25TH WIN

SCHOFIELD BARRACKS LEAGUE. Saturday's Game: 25th Infantry 12, 4th Cavalry 2. Sunday's Game: 1st Field Artillery 6, 1st Infantry 3.

[Special Star-Bulletin Correspondence] SCHOFIELD BARRACKS, May 26.—In a fiercely fought game that did credit to both teams, the Artillery put it over the First Infantry, 6 to 3.

The wagon soldiers played a fast, hard-hitting game from the start, and the lead they made on Harry Gray's homer in the third and Pontoff's home run in the fifth gave them a lead that the Infantry, fighting like mad, could not overcome. There was considerable good judgment in putting Cable in the box for the Infantry and keeping him there even though he was hit hard and often. The First has seventeen games yet to play in this series, and despite the bad start no one considers them out of the running yet. Someone must pitch these games for Kidd and Moore can't do it all. Cable showed up stronger as the game finished and he has all the earmarks of a coming pitcher. It's a cliché that to get experience a pitcher must have a chance and when he's a little older in the game look out for this same little Cable. At last the First has a backstop in Cox, who caught a fine game yesterday. Barring a little too much deliberation in deciding whether or not to throw to bases there is nothing but praise coming to this youngster. If with his quick whip he had thrown to "Bough" he would have caught a couple of first yesterday. Nothing got through him yesterday and if Kidd will take some advice and work with this kid the First will have a battery. It can't be done in a day, but it can be done in a month. For the Artillery Bowers pitched a beautiful game—not an earned run being made off his delivery. He had speed, control and a catcher—Jacobs—and the combination held the Infantry to five scattered hits, two of them scratches. The First were bunting prettily in the sixth, but Bowers' fielding of these held the mwell.

Guy, on second, made the fielding exhibition of the game until the last, when he stumbled into three errors in a row to spoil his record. In the sixth he made a running stop of a hard-hit ball between first and second which might have brought in three runs instead of one but for this play. Grey whipped it across to third like a flash and Walters was run down after six wagon soldiers had butted into the play. Walters is not to be blamed for trying to score, for nothing but a miracle and Grey could ever get that ball.

At the bat Grey made a home run, a triple, and a single, in four chances. McKay made three singles in four times at bat. The umpiring was satisfactory. Horse Soldiers Lose. The ease with which the Twenty-fifth Infantry disposed of the hopes and money of a large crowd of cavalry rooters on Saturday afternoon is evident from the printed score above and the audible clinking of yellow money in Infantry pockets. The game drew the largest crowd of the

series and the stands were wild with excitement at the start, gradually confining itself to the Twenty-fifth side of the field as the game progressed. As a fattener of batting average, the game was a gift to some of the Infantry batters. Hollingsworth went to the head of the list of post batsmen by batting four hits in four times at bat and bringing his average for the four games up to .556, or ten hits in sixteen appearances. Palmer, the big pinch hitter of the Twenty-fifth, was in right field for the whole game and damaged his 1,000 per cent record for two games by failing on one appearance to hit safely beyond the infield. He had four hits in five times at bat with an average of .833 per cent for two games.

Little Thomas demonstrated further his value as a run getter by crossing the rubber four times—helped by errors, one hit and a base on balls. This little five-foot pitcher puzzled in three games has only eight times at bat against him, and has collected for his team an individual record in these eight chances, seven runs, one hit, six bases on balls and six stolen bases. Some record for waiting and speed.

The honors of the game go by every right to Jasper; the big Twenty-fifth twirler, who, after a poor start earlier in the spring, is coming into his own and displaying great form. He completes a quartet of Twenty-fifth pitchers, each of whom has had his game always beyond danger.

Jasper scared his regiment—and himself as well probably—in the opener and with his own wildness and the roar of cavalry fans in his ears it's a marvel that he pulled his team out of the hole.

Smack, who is pushing Thomas for waiting and base stealing honors, left his bat on his shoulder while Jasper pitched four balls; and then stole second. De Swan hit safely to right. Jasper hit Donaldson with the first delivery. Then, with the bases full, Jasper began to play ball for all he has in him. Graworth hit a hot one to Jasper which he smothered under his glove and caught Smook on the force play at home. He then fanned Dowd and on the third strike Lurmont whipped the ball like a streak to Willis at third catching De Swan. From here on Jasper had the Cavalry eating from his hand and three scratch hits were all they made from his delivery. He lost control for a fatal minute in the eighth—gave a base on balls and allowed a run by a wild pitch but the game would still have been a shut out if Swinton had not missed a high cork screw fly almost directly over home plate that allowed two runs to cross. But to show the class the Twenty-fifth is playing at present. Willis dashed in from third in time to rescue the ball and catch the batter at second. Swinton and Willis both made clean home runs—showing the hard luck games the Cavalry outfield was up against.

This outfield is some outfield, but Saturday everything seemed to be knocked just out of their reach. Palmer, for instance, who usually skies his hits, contented himself with short hits just over the infield. The new Cavalry infield, with Donaldson at short, doesn't seem as well balanced as before. Donaldson at present is better than Leoby at first and his playing at short is far below Kaulhus who played the position in earlier games.

The whole Cavalry team has dropped a little in form. Saturday was doubtless an off day. The umpiring of Monahan and O'Connell was excellent. Stung by a bumble bee a week ago Clarence, four years old, son of Thomas Montgomery, of Fairview, Penn., is in a critical condition and will probably die.

## FORESTERS MEET TO REVERE THE DEAD

The first memorial exercises ever held in this city by Court Camoes, No. 8110, of the Ancient Order of Foresters, took place in the Lusitania hall, corner of Alapai and Lunalilo streets, yesterday afternoon.

The first number of the program was a piano solo by Miss Clara Ingalls, following which Rev. E. G. da Silva pronounced the invocation. The Kamehameha Glee Club then sang "Mother Love," and Mrs. Eisa Howard rendered "Air on G String" on the violin. The address of the afternoon was delivered by O. F. Soares, who took for his subject "Our Departed Brothers." During the course of the address the speaker paid a tribute to those Foresters who are dead, and then spoke in general of the purposes of the lodge. Following the address, a musical program was rendered composed of "Rock of Ages," by the Kamehameha Glee Club, and "Bethoven's Minuet," as a violin solo by Mrs. Howard. The Misses Soares, Mrs. E. D. da Silva and Miss Dias composed a quartet which sang (a) "His Presence," by Emerson, and (b) "Jesus, Lover of My Soul," by Parker. The benediction offered by Rev. da Silva completed the program.

## PERSONALITIES

MR. AND MRS. R. T. LATHROP of Hollister and Miss Caroline Postgate have returned from a visit of a month to the Hawaiian Islands.—San Jose Mercury.

### A SAMARITAN

James Craig is a prosperous merchant of Silverton, Oregon. He has time to think of the health and happiness of those about him.

A young lady school teacher, the daughter of a friend, was succumbing to Bright's Disease. Craig wrote to the late N. W. Spalding, then United States Sub-treasurer of San Francisco, to ask if there was any truth that Bright's Disease was being cured in California. Spalding replied that after he had spent \$10,000 with physicians his own daughter had recovered, and that too after the dropsy had developed, and the case was supposed to be hopeless, and to tell the father to put the patient on Fulton's Renal Compound.

Craig advised the girl's father of the satisfactory nature of the report and the Renal Compound was taken to the patient. She recovered and was teaching school at last advice.

Craig was so delighted that he told others. He has sent us the names of nearly a dozen whom he has helped to new leases of life.

If you have Bright's Disease you owe it to yourself and family to try Fulton's Renal Compound before giving up. It can be had at Honolulu Drug Co.

Ask for pamphlet on our investigation into the curability of Bright's Disease or write Jno. J. Fulton Co., San Francisco.—Advertisement.

### INFLUENCE OF WOMEN

The influence of women, glorious in the possession of perfect physical health, upon men and upon the civilization of the world could never be measured—but what about the ailing, nervous, depressed woman who is a damper to all joyousness in the home and a drag upon her husband? Every such woman should remember that the one great American remedy for woman's ills is Lydia E. Pinkham's Vegetable Compound and give it a trial at once, and thus put herself in the way of restoring that perfect physical health which is hers by birthright.—Advertisement.

One bottle of rum might mean six pairs of shoes gone for the baby.
